INTRODUCTION

The main object of this booklet is to supply in brief, guidance regarding the health services provided by the County Council of Durham as Local Health Authority.

To make it additionally useful, details are given in Part II of the services provided by the Executive Council for the County of Durham.

Hospital and consultant services are administered by the Newcastle upon Tyne Regional Hospital Board and information regarding these can be obtained from private medical practitioners.

Health Department,
Shire Hall,
DURHAM.
July, 1957.

PART I

Health services provided by the Local Health Authority, the County Council of Durham. For further information apply to the County Medical Officer, Health Department, Shire Hall, Durham. Telephone No. Durham 4411—extension 27, or to the Assistant County Medical Officers as shown in Appendix XIII, page 84.

CARE OF MOTHERS AND YOUNG CHILDREN

Maternity and Child Welfare Centres.—These are located to meet, as far as possible, the needs of the population of the area. Ante-natal, post-natal, ultra violet ray, birth control and dental sessions are also held at these centres.

Appendix I, page 10, gives the addresses of the centres and the days and times of the sessions.

Welfare Foods.—National dried milk, orange juice, cod liver oil and vitamin tablets for mothers and babies are distributed from conveniently located centres.

Appendix II, page 19, gives the addresses of the distribution centres and the opening times.

Care of the Premature Baby.—Special nursing equipment can be obtained on request from midwives. Units for the care of premature babies are available at some hospitals and medical practitioners can arrange admission.

Convalescent Home.—The E. F. Peile Home for mothers with babies under six months and for children aged one to five years is at Shotley Bridge. Admissions are made on the recommendation of the medical officers at the maternity and child welfare centres.

Nurseries.—Day nurseries are provided at.—

Tame Street, Haverton Hill	Tel. No. Middlesbrough 57129
Prince Consort Road, Hebburn	„ Hebburn 32027
Durham Road, Stockton	„ Stockton 66940
Norton Road, Stockton	„ Stockton 66555

Application for admission should be made to the matrons.

Residential nurseries are also available for certain cases and information regarding these may be obtained from the Children's Officer, Crossgate Moor, Durham—Tel. No. Durham 3311.

Hostels for Unmarried Mothers and Babies.—Arrangements have been made for the provision of help and advice to unmarried mothers by the staff of the Durham Diocesan Moral Welfare Association. Accommodation is available in the Mother and Baby Home, Smelt House, Howden-le-Wear, and in Homes administered by voluntary agencies. Admission to

maternity homes can be arranged on application to the doctors at the maternity and child welfare centres shown in Appendix I, page 10.

DOMICILIARY MIDWIFERY SERVICE

A domiciliary midwifery service is provided throughout the county. Names and addresses of midwives can be obtained from maternity and child welfare centres (see Appendix I, page 10), county health visitors, or medical practitioners and are also shown in Appendix III, page 27.

HOME NURSING

The services of a home nurse are available anywhere in the county. Medical practitioners, the County Health Department, or the Assistant County Medical Officers will advise as to the scope of the service provided. Names and addresses of district nurses are given in Appendix IV, page 45.

HEALTH VISITING

The health visitors visit persons in their homes for the purpose of giving advice on the care of young children, to expectant or nursing mothers, and aged or ill persons, and to stress the measures necessary to prevent the spread of infection. They provide the link between the home and the County Health Department and the name and address of the health visitor for any area can be obtained from Appendix V, page 61, from the County Medical Officer, Shire Hall, Durham, or from the Assistant County Medical Officers.

VACCINATION AND IMMUNISATION

(a) Vaccination against smallpox may be obtained free of charge on application to any medical practitioner who has agreed to give service within the National Health Service. Facilities are also available for the vaccination of children at maternity and child welfare centres.

(b) Immunisation against diphtheria may be carried out on application to maternity and child welfare centres or to any general practitioner in the National Health Service, free of charge.

(c) B.C.G. vaccination against tuberculosis may in certain circumstances be carried out by chest physicians at the chest clinics. A list of these is given in Appendix VI, page 70a, and application should be made direct.

(d) Until supplies of vaccine are freely available, vaccination against poliomyelitis is being carried out on a limited scale. Information as to the scope of the scheme can be obtained on application to the County Health Department, or from the Assistant County Medical Officers.

AMBULANCE SERVICE

The County Council provides a free ambulance service for persons in their area for whom ambulance transport is NECESSARY. In an emergency any responsible person may summon an ambulance by telephone by asking to be connected to the nearest ambulance control (no telephone number need be given). As a general rule, however, requests for the use of an ambulance should originate from hospitals, doctors, nurses, midwives, dentists or the police. A doctor in attendance may give a patient or a relative a note certifying in advance the need for ambulance transport and this certificate should be posted or taken to the nearest ambulance control. See Appendix VII, page 71, for list of controls.

Relatives or friends of out-patients attending hospital for treatment cannot be carried except for some special reason, in which case an application to the County Medical Officer of Health, Shire Hall, Durham, will be considered sympathetically.

PREVENTION OF ILLNESS, CARE AND AFTER-CARE

Nursing equipment is provided for sick persons at the request of medical practitioners, district nurses, and hospital almoners. Invalid chairs are also available and extra nourishment or bedding can be supplied to patients suffering from tuberculosis. A charge is normally made for this service, but in certain circumstances, the charge may be reduced or remitted altogether.

A sound film projector and a film strip projector are available for the showing of films on health matters to selected audiences and the general public anywhere in the county.

Limited accommodation is available in convalescent homes provided by voluntary agencies and information can be obtained from the County Health Department.

DOMESTIC HELP SERVICE

Domestic help is provided for households where such help is required owing to the presence of any person who is ill, an expectant mother, lying-in, mentally defective, aged or a child not over school age. Any person may make a request for the services of a domestic help and application can be made direct to the County Health Department, the assistant organisers whose names and addresses appear in Appendix XIV, page 85, or the health visitors as shown in Appendix V, page 61. A charge is normally made for this service, but in certain circumstances, the charge may be reduced or remitted altogether.

MENTAL HEALTH

Parents and relatives who wish to obtain information regarding the services available for children or young adults who are mentally retarded should get in touch with the County Health Department, the health visitor, the Assistant County Medical Officer, or the duly authorised officer for the area (see Appendix VIII, page 73, for names and addresses of duly authorised officers).

Training can be given in the homes of patients and there are occupation centres to serve certain areas of the county.

The duly authorised officers, at the request of medical practitioners or the police, can arrange for the admission of cases to mental hospitals.

The services of a psychiatric social worker are also available.

WELFARE SERVICES

Residential Accommodation.—Accommodation is provided for persons who by reason of age, infirmity, or other circumstances, are in need of care and attention which is not otherwise available to them. Although new accommodation is steadily being provided, all available beds are occupied and there is a waiting list. A list of hostels is given in Appendix IX, page 76.

Application for admission should be made to the County Medical Officer or to the Assistant County Medical Officers.

Blind Persons.—A comprehensive service is provided which includes medical examination, home visiting and teaching, assistance in obtaining suitable employment in workshops or at home, admission to homes for the blind, and general social welfare. A residential hostel, reserved for blind persons, is situated in Durham City. Any advice needed can be obtained from the County Health Department.

Other Handicapped Persons.—Certain welfare services are available for persons who are deaf and dumb, partially sighted, or substantially and permanently handicapped by illness, injury or congenital deformity.

CLEAN MILK AND WATER SUPPLIES

Investigations can be made regarding the quality of milk supplies and when any doubt arises as to the quality or quantity of water supply in any part of the county.

SCHOOL HEALTH SERVICE

The School Health Service is provided by the County Council as the Local Education Authority and is administered by the County Education Committee. The service provides for the systematic medical inspection of school children and makes arrangements for the medical treatment of

pupils. Parents are advised to consult their family doctor concerning any defects or diseases which are reported to them as a result of the medical examination of their children.

Where pupils are found to require specialist examination or treatment, arrangements are made, if the parents so desire and the family doctor agrees, for the children to attend the appropriate hospital or clinic. Facilities are provided for the treatment of minor ailments, defective vision, dental and speech defects at school clinics, details of which are given in Appendix X, page 77.

Special Schools, particulars of which are given in Appendix XI, page 80, are provided for educationally sub-normal and delicate children. Arrangements are made, when necessary, for other handicapped children to be placed in special schools maintained by other authorities.

PUBLIC HEALTH ACTIVITIES OF URBAN AND RURAL DISTRICT COUNCILS

The general sanitary supervision of the administrative county is carried out by urban and rural district councils and information regarding such services can be obtained from the medical officer of the area. A list of medical officers of health of county districts is given in Appendix XII, page 82.

Services coming within the jurisdiction of district councils include.—

Scavenging and cleansing.	Cowsheds.
Sanitary conveniences.	Offensive trades.
Drainage, sewerage and sewage disposal.	Control of infectious diseases.
Nuisances.	Disinfection.
Housing.	Disinfestation.
Water supply.	Food premises.
Factories and workshops.	Dairies.
Common lodging houses.	Moveable dwellings.
Slaughterhouses.	Rodent control.
Meat inspection.	Smoke abatement.
Licensed premises and clubs.	Control of colliery spoil banks.

PART II

From the 5th July, 1948, everyone became entitled as part of the arrangements for a National Health Service, to general medical care, dental care, medicine, appliances and spectacles when required. These services are administered by the National Health Service Executive Council for the County of Durham and any further information required regarding the services provided can be obtained by application to the offices of the Executive Council, 20, New Elvet, Durham. (Tel. No. Durham 2403).

How to choose a doctor.—Everyone aged 16 and over can choose his or her own doctor. Parents or guardians choose for children under 16. For this purpose an application form E.C.1 (Rev.) should be obtained from a doctor or the Executive Council and handed to the doctor of your choice. If a patient wishes to change his doctor he should follow the instructions on the medical card which will be sent to him on first choosing a doctor. If he needs a doctor when away from home, or in an emergency, when his own doctor is not available, immediate treatment can be obtained from any doctor giving general medical services within the National Health Service.

Maternity Services.—An expectant mother can have the services of a doctor who undertakes maternity work (whether he is her usual doctor or not) and of a midwife, as well as general care before and after confinement.

Hospital and Consultant Service.—A general practitioner will arrange this, if necessary. Hospital treatment is free but some hospitals have small wards available for patients willing to pay a small charge for privacy and at some hospitals there is private pay bed accommodation where patients pay the full cost of the services provided.

Medicines, Drugs and Appliances.—The National Health Service doctor will provide the necessary prescriptions. These can be taken to any chemist who will charge 1/- for each item on the form. In some country districts doctors undertake their own dispensing in which case a charge of 1/- per item supplied, will be made by the doctor. Medical and surgical appliances are also available when necessary and the doctor can arrange. For some appliances a charge is made.

Care of the Teeth.—Any dentist taking part in the National Health Service will provide treatment if possible. No application form is necessary. The examination is free but there is a charge of not more than £1 for treatment for those over the age of 21 years. (Expectant or nursing mothers are exempted from this charge except for dentures). If dentures are necessary the dentist will know how much there is to pay.

Care of the Eyes.—In the first place the family doctor will provide a certificate to the effect that his patient's eyes need testing. This certificate can be taken to any doctor with special ophthalmic qualifications or to any ophthalmic optician who will carry out an examination without charge. If glasses are necessary these will be provided by an ophthalmic or dispensing optician at part cost. A certificate is not required for re-tests.

Deafness.—There are specialist ear clinics in all regions and the family doctor can arrange an examination. Hearing aids and batteries will be provided, if needed.
